INTRODUCTION

Activity: Jingle Bells

Invite the children to join you at the carpet. **Today, in The Big God Story, we will learn how we can worship God with music, singing, and dancing. Today we will use these instruments that are called jingle bells! We will use the jingle bells to make music and sing "Jesus Loves Me."** After the kids each have jingle bells you can tell them to repeat the song after you while shaking the bells.

LARGE GROUP

REFLECT

Remember Verse

Today we learned our remember verse and big idea. Can we say it together and do the hand motions?

"Let everything that has breath praise the LORD!"

**Psalm 150:6
God Made Our World**

Activity: Egg Maracas

Invite the children to join you around the rice tables. **Today, in The Big God Story, we learned how we can worship God with music, singing, and dancing. We are going to make our very own musical instrument so that we can worship God! But first, I misplaced all of our instruments can we all find one in the container of rice?** After the kids each have an egg have them join you at the table to turn their eggs into maracas. Wrap some tape around the egg and spoons to make them into maracas and then have the kids decorate it with stickers. Ask the team lead to show you the example if you need more clarity.

PRAYER OF THE DAY

Before going into prayer say this to the children: **You can talk to God with prayer, anytime and anywhere.**

Let's hold out our hands, with our palms together as if we are cupping water and repeat this prayer after me.

God, you are worthy of all of our praise. Thank you that we can worship you with music, singing, and dancing.

CLOSING

Let's say our remember verse and big idea together one more time.

"Let everything that has breath praise the Lord."

Psalm 150:6

How can we worship God?

We can worship God with music, singing and dancing.
